THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

DETAILED ACTION

Examiners Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiners amendment was given in a telephone interview with Daniel Gibson (Reg. No. 56539) on December 18, 2008.

Claim 1, line 2, "comprising:" has been changed to "comprising: using a processor to perform".

Claim 25, line 2, "comprising:" has been changed to "comprising: using a processor to perform".

Allowable Subject Matter

1. Claims 1-8, 11, 12 and 14-26 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 18 are allowable over the prior art of record because non of the prior art of record teaches the combined claimed elements as set forth in the claim 1 and 10.

None of the prior art of record teaches or fairly suggests that image processing method for reconstructing multidimensional objects from image data that use search beam that has a chronological and/or spatial starting point on the plane or line of the partial image area used to determine the multidimensional image information of the first space element, and the search beam has a maximum spatial and/or chronological length along the pre-determinable multidimensional direction vector; wherein the second space elements are determined in a first step by the multidimensional image information of that first space element which forms the starting point of the search beam, and the second space elements are weighted in further steps by multidimensional image information of further first space elements which form starting points of search beams which also penetrate the second space elements, wherein the weights orientate themselves at multidimensional distances of each second space element to the respective starting points, and together with combination of other claimed elements as set forth in the independent claims 1 and 18. Therefore, the claim 1 and 18 are over the prior art of records.

Claims 25 and 26 are allowable over the prior art of record because non of the prior art of record teaches the combined claimed elements as set forth in the claims 25 and 26.

None of the prior art of record teaches or fairly suggests that image processing method for reconstructing multidimensional objects from image data that a second group of space elements is generated in the multidimensional voxel space from second space elements by an information transformation from the multidimensional image information of the first group of space elements; wherein the spatial and/or chronological distance from each second space element to the next first space element of the first group of space elements is determined; wherein the multidimensional image information of each second space element is determined by means of the multidimensional image information of the spatially and/or chronologically nearest first space element; and wherein the spatial and/or chronological distance and a reference number for the plane or line of the partial image area, which was used to determine the multidimensional image information of the nearest first space element, is also stored as multidimensional image information of each second space element, and together with combination of other claimed elements as set forth in the independent claims 25 and 26. Therefore, the claims 25 and 26 are over the prior art of records.

Claims 2-8, 11, 12, 14-17 and 19-24 are allowed because they are depended on independent claims 1 and 18.

Any comments considered necessary by applicant must be submitted no later than payment of the issue fee and, to avoid processing delay, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance."
